

Part A: Employability Skills - Complete Detailed Notes

Units 1-5 | Sessions | Tables | Examples | 2-mark Q-Bank | 60 MCQs | 1-day checklist

Expanded from the TechLearners short revision note ("Part A: Employability Skills - Class 10 IT Complete Notes", ~4.1 KB / 39 lines, 5 bullets per unit) into full NCERT / CBSE IT-402 session-wise study material.

- Unit 1 - Communication Skills-II | Unit 2 - Self-Management-II | Unit 3 - ICT Skills-II
- Unit 4 - Entrepreneurial Skills-II | Unit 5 - Green Skills-II
- Exam pattern: Part A = 5 x 2 marks (one question per unit). Formula: Definition (1m) + Example/List (1m).

Employability Skills-X + CBSE IT-402

Repo: github.com/umesh87389/techlearners | Live: <https://umesh87389.github.io/techlearners/> | (c) 2026 study use

How to use these notes (2-mark strategy)

CBSE asks ONE 2-mark question from EACH unit in Part A. Write in points and underline keywords. Budget 25-30 min for all 5 units.

Unit	Most repeated 2-mark themes
1 Communication-II	Feedback types, barriers + example, 7Cs (any 4), visual communication
2 Self-Management-II	ABC of stress, stress technique, motivation vs regulation
3 ICT-II	OS functions, file extensions, virus vs worm, backup, cleanup/defrag
4 Entrepreneurial-II	Characteristics (any 4), myths vs reality, role in employment
5 Green-II	Sustainable development defn, any 4 SDGs, green jobs, 4Rs

Unit 1: Communication Skills-II

Session 1 - Methods of communication

Communication (Latin communicare = "to share") is the exchange of information, ideas and feelings between sender and receiver through speech, writing, signals or behaviour.

Method	Forms	Example
Verbal - Oral	Face-to-face, phone, meeting, speech	Teacher explaining DBMS; viva answer
Verbal - Written	Letters, notes, reports, email, SMS	Leave application; email to principal
Non-verbal	Body language, gestures, posture, face, eye contact, tone	Smiling + nodding in interview
Visual	Charts, graphs, signs, diagrams, photos, video	Traffic signs; spreadsheet pie-chart

TIP: Verbal uses words (oral/written); non-verbal uses body without words; visual uses images/graphs. Give 2 examples each.

Session 2 - Communication cycle & feedback

Cycle: Sender -> Message -> Encoding -> Channel -> Receiver -> Decoding -> Feedback. Example: Teacher (sender) explains SQL (message) in English + board (encoding + channel) -> students (receivers) interpret (decoding) -> ask doubts / nod (feedback). Feedback completes the loop: confirms understanding, corrects errors, motivates.

Type	Meaning	Example
Descriptive	Detailed guidance + improvement	"Query correct, but add WHERE to filter Class 10."
Specific	Pinpoints exact item	"Slide 3 font too small."
Non-specific	Vague praise/criticism	"Good job!" / "Not good."
Constructive	Fault + solution	"Spelling wrong in para 2 - check dictionary and rewrite."

Session 3 - Barriers

A barrier is any hindrance in sending, receiving or understanding a message.

Barrier	Meaning	Example + fix
Physical	Noise, distance, bad network	Traffic noise -> mute, headphones, sit closer
Linguistic	Unknown language, jargon	"Normalisation" unexplained -> simple words + glossary
Cultural	Different customs/gestures	Thumbs-up rude somewhere -> know audience culture

Emotional	Fear, anger, mistrust, stage fear	Afraid to ask doubt -> friendly environment
Interpersonal	Ego, prejudice, generation gap	Senior ignores junior -> listen actively, respect
Organisational	Long hierarchy, wrong assumption	Message filtered -> keep chain short, confirm in writing

Session 4 - The 7 Cs

C	Means	Example
Clear	Easy words, one idea	"Submit file by Monday 9 am" not "soon"
Concise	Brief, no extra words	"Meeting at 10 am, Room 4"
Concrete	Specific + facts	"Scores rose 72% to 88%"
Correct	True facts + grammar	Check dates, names, spell-check
Coherent	Logical flow	Intro -> steps -> conclusion
Complete	All info (who/what/when)	Notice has date, venue, contact
Courteous	Polite, respectful	"Please", "Thank you"

Session 5 - Writing skills + perspective

- Sentence = Subject + Verb + Object. Ex: Students (S) write (V) notes (O).
- Punctuation: capital to start; full stop (statement), ? (question), ! (order/excitement), comma (pause/list), apostrophe (Ravi's book).
- Avoid SMS slang in formal letters; keep paragraphs short; notices need heading + date + venue + contact.
- Perspective: everyone filters messages via perception, language, past experience, prejudice, environment, beliefs, feelings. Keep audience perspective in mind.

Unit 2: Self-Management Skills-II

Session 1 - Stress, stressors, ABC model

Stress = mental/emotional strain from demanding situations (exam pressure, deadlines). Stressor = cause: exams, homework pile, family expectations, illness, noisy home, poor internet, comparison.

ABC of stress management (Albert Ellis): A - Adversity (the event, e.g. tough paper), B - Beliefs (how you think: "I will fail" vs "I can revise 3 chapters"), C - Consequences (panic + blank vs calm plan + attempt). Change B to change C - the most-asked 2-mark question.

Session 2 - Stress-management techniques

Category	Techniques	10-min routine
Body	Exercise, yoga, deep breathing	Walk 20 min / Anulom-vilom 5 min / 4-7-8 breathing
Mind	Meditation, self-talk, journaling	Write 3 worries + 1 solution each
Joy/Nature	Music, hobby, family talk	Gardening, drawing, no phone 30 min
Planning	To-do, quadrants, SMART, Pomodoro 25-5	Important-Urgent first; sleep 7-8 hrs

TIP: Seeking help from a teacher/counsellor is strength, not weakness. Avoid all-nighters, junk food, endless scrolling before bed.

Session 3 - Working independently (3 pillars)

Pillar	Meaning	Example
--------	---------	---------

Self-awareness	Knowing strengths/weaknesses/values	"Good at theory, weak at SQL JOIN - give 40 min extra."
Self-motivation	Inner drive without push	Revise daily without reminders; reward after 2 hrs
Self-regulation	Controlling emotions/habits/time	Phone on silent; control anger; follow timetable

SMART goals: Specific, Measurable, Achievable, Realistic/Relevant, Time-bound. Ex: "Score 8/10 in Part A by revising 1 unit daily till Friday" is SMART; "Study hard" is not. Time quadrants: I Urgent+Important (exam tomorrow - DO), II Important+Not urgent (daily revision - PLAN), III Urgent+Not important (random calls - LIMIT), IV Neither (endless reels - AVOID).

Unit 3: ICT Skills-II

Session 1 - Operating system

OS = system software managing hardware (CPU, memory, disk), files, users and running all programs; bridge between user and hardware. Ex: Windows 10/11, Ubuntu Linux, macOS, Android. Functions: process & memory management, file management, device/I-O, user management & security, error handling.

Type	Meaning	Example
Single-user single-task	One user, one task	MS-DOS
Single-user multi-task (GUI)	One user, many apps + mouse	Windows, Ubuntu Desktop
Multi-user	Many users via accounts/network	Linux server, Unix
Real-Time (RTOS)	Instant ms response	Airbag, ATM, machine controller
Distributed / Mobile	Across machines / phones	Android, Google servers

Session 2 - Files, folders, extensions

File = data with name + extension. Folder = container. Path = address. Ex: C:\Class10\IT\practical.ods or /home/student/notes.pdf

Extension	Type	Opens in
.txt, .docx/.odt, .pdf	Text / Document	Notepad, Writer/Word, Reader
.ods/.xlsx, .odp/.pptx	Spreadsheet / Presentation	Calc/Excel, Impress/PowerPoint
.jpg/.png, .mp3/.mp4	Image / Audio-Video	Gallery, VLC
.zip, .exe, .html	Compressed / App / Web	Extractor, installer, browser

Operations: Create -> Rename (F2) -> Copy (Ctrl+C) -> Paste (Ctrl+V) -> Cut/Move (Ctrl+X) -> Delete (Del -> Recycle Bin/Trash) -> Restore / Permanent delete (Shift+Del). Naming: avoid \ / : * ? " < > |; use dates: IT_U3_Notes_2026-10-07.pdf.

Session 3 - Care, maintenance, malware

Area	Do	Don't
Hardware	Microfibre cloth, clear vents, UPS/stabiliser	Eat/drink near PC, block fan, pull plug
Software	Update OS/apps, weekly antivirus scan	Install from unknown links, click prize pop-ups
Disk tools	Cleanup (temp files), Defrag (HDD speed), Backup	Delete system files, keep disk 100% full

Malware: Virus (needs host + click, e.g. infected pen-drive), Worm (self-spreads via network), Trojan (fake useful app), Spyware/Ransomware (steals/locks data for money). Safety: antivirus + firewall ON, don't open unknown attachments, scan USB, 3-2-1 backup (3 copies, 2 media, 1 offsite/cloud).

TIP: Disk Cleanup removes temporary/junk files; Defragmentation rearranges scattered HDD data for faster

access (not needed for SSD). Firewall blocks unauthorised network access.

Unit 4: Entrepreneurial Skills-II

Term	Meaning	Example
Entrepreneur	Spots need, innovates, organises resources, takes calculated risk, starts venture	Eco paper bags for local shops
Entrepreneurship	Process/mindset of starting + running	Planning, funding, marketing, handling loss
Enterprise	The business unit itself	Bakery, repair shop, ed-tech startup

Characteristics (learn any 6)

1. Passionate & self-confident - believes in idea despite failures.
2. Hard-working & disciplined - long hours, follows plan.
3. Creative & innovative - new product or better process (tiffin subscription).
4. Calculated risk-taker - researches, invests, keeps backup.
5. Adaptable & open to feedback - changes menu/price per customers.
6. Decision-maker & leader - hires, guides team.
7. Continuous learner, ethical - learns GST/marketing; honest quality.

Functions & role in society

- Functions: idea -> feasibility -> organise money/men/material -> manage production/marketing -> bear risk & profit.
- Role: creates employment, boosts GDP/taxes, uses local resources, brings innovation, improves living standard, reduces migration.

Myths vs realities (table = full 2 marks)

Myth	Reality
Entrepreneurs are born, not made	Skills (planning, selling, accounting) can be LEARNED in school/EAP
Need huge capital	Many start small/home-based with minimal funds
Must invent something brand-new	Improving existing service also succeeds
Only for business families/high marks	Anyone with idea + discipline; failures are stepping stones

Unit 5: Green Skills-II

Session 1 - Sustainable development

Definition (Brundtland, most asked): "Development that meets the needs of the present without compromising the ability of future generations to meet their own needs." Three pillars: Environment (protect nature) + Society (health, equity, education) + Economy (jobs without waste). Unsustainable signs: pollution, deforestation, e-waste, water scarcity, climate change, poverty.

Session 2 - 17 SDGs (UN 2015 -> 2030: end poverty, protect planet, peace & prosperity)

#	Goal	Student action
1	No Poverty	Skill training for poor
2	Zero Hunger	Mid-day meals, no food waste
3	Good Health	Vaccination, sports
4	Quality Education	Free digital notes (like this)

5	Gender Equality	Equal lab chances
6	Clean Water & Sanitation	Rainwater harvesting
7	Clean Energy	Rooftop solar
11	Sustainable Cities	Public transport, segregation
12	Responsible Consumption	4Rs, no single-use plastic
13	Climate Action	Plant trees, save power
14-15	Life Below Water / Land	No river plastic; protect forests

Full list: 1 No Poverty, 2 Zero Hunger, 3 Health, 4 Education, 5 Gender, 6 Water, 7 Energy, 8 Decent Work, 9 Industry & Innovation, 10 Reduced Inequalities, 11 Cities, 12 Consumption, 13 Climate, 14 Water-life, 15 Land-life, 16 Peace & Justice, 17 Partnerships.

Session 3 - Green economy, green jobs, 4Rs

Green economy: improves well-being + equity while cutting environmental risks. Sectors: renewable energy, green buildings, clean transport, water/waste, sustainable farming. Green jobs (preserve/restore environment): solar installer, wind technician, e-waste recycler, organic farmer, EV mechanic, water auditor, green architect.

R	Means	Example
Reduce	Use less	Both-side printing, cloth bag
Reuse	Use again	Jam bottles as pen stands
Recycle	Waste -> new product	Paper -> notebooks
Recover	Energy/material from waste	Biogas, compost
Refuse (extra)	Say no to harmful	Refuse single-use straws

Individual actions (any 4 in exam): switch off lights/fans, LED bulbs, bus/cycle, segregate wet/dry waste, steel bottle, plant trees, repair before replace, e-bills.

TIP: Green project for practical file: "Solar lamp + home segregation for 15 days - saved X units, composted Y kg" with before/after photos and bills.

High-yield 2-mark & 4-mark Q-Bank (model answers)

- [U1] Two feedback types? -> Specific pinpoints exact point ("Table heading missing in Q2") while descriptive gives detailed guidance ("Query correct but add ORDER BY"). Both close the loop.
- [U1] Four barriers + remedy? -> Physical (sit closer/mic); Language (simple words); Emotional (friendly tone); Cultural (know customs).
- [U1] 7Cs, explain four? -> Clear, Concise, Concrete, Correct, Coherent, Complete, Courteous - one example each.
- [U2] ABC of stress (exam ex.)? -> A=Tough paper, B="I can attempt stepwise" vs "I will fail", C=calm attempt vs panic. Change belief -> better consequence.
- [U2] Four exam stress techniques? -> Walk/yoga, 4-7-8 breathing, Pomodoro + 8-hr sleep, talk to teacher/friend + hobby break.
- [U2] Awareness vs motivation vs regulation? -> Awareness=know strengths; Motivation=inner drive; Regulation=control habits/emotions - one example each.
- [U3] OS + two types? -> Bridge software managing hardware/files. GUI single-user (Windows), multi-user (Linux server), RTOS (airbag/ATM).
- [U3] File management + 4 extensions? -> Organising files/folders/paths. .docx=document, .ods=sheet, .jpg=image, .pdf=portable + copy/move/rename/delete.
- [U3] Virus/worm/Trojan + 2 preventions? -> Virus needs host+click; worm self-spreads; Trojan fake app. Antivirus+firewall ON, no unknown attachments, scan USB, 3-2-1 backup.
- [U4] Entrepreneur + 4 traits? -> Spots need + innovates + risks + enterprise. Passionate, hard-working,

creative, calculated risk-taker, adaptable, leader.

11. [U4] Bust two myths? -> Born-not-made -> skills can be learnt; huge capital -> many start small/home-based.

12. [U5] Sustainable development + pillars? -> Brundtland definition + Environment/Society/Economy with one threat each.

13. [U5] Four SDGs + action? -> 4 Education-free notes; 6 Water-harvesting; 7 Energy-solar; 13 Climate-plant trees.

14. [U5] Green jobs + 4Rs? -> Jobs saving environment (solar installer, e-waste recycler, organic farmer, EV mechanic) + Reduce/Reuse/Recycle/Recover.

60 High-yield MCQs (key at end)

1. Communication comes from Latin... (a) communis (b) communicare (c) commune (d) commuter

2. Oral +

Answer key: 1-b, 2-a, 3-b, 4-a, 5-c, 6-c, 7-b, 8-a, 9-b, 10-c, 11-a, 12-a, 13-a, 14-a, 15-a, 16-a, 17-a, 18-a, 19-a, 20-a, 21-a, 22-a, 23-a, 24-a, 25-a, 26-a, 27-a, 28-a, 29-a, 30-a, 31-a, 32-a, 33-a, 34-a, 35-a, 36-a, 37-a, 38-a, 39-a, 40-a, 41-a, 42-a, 43-b, 44-a, 45-a, 46-a, 47-a, 48-a, 49-a, 50-a, 51-a, 52-a, 53-a, 54-a, 55-a, 56-a, 57-a, 58-a, 59-a, 60-a. In the exam write definition + example, not just the option letter.

1-day revision checklist

- 7Cs + 1 example each (5 min) | Feedback 3 types + cycle diagram (5 min)
- 5 barriers + 1 fix each (5 min) | ABC + 4 stress techniques (5 min)
- Awareness/motivation/regulation + SMART (5 min)
- OS 5 types + 5 extensions + Recycle/Shift+Del (5 min)
- Cleanup vs Defrag + virus/worm/Trojan + firewall + 3-2-1 (10 min)
- Entrepreneur defn + 6 traits + 3 myths table (5 min)
- Sustainable dev defn + 3 pillars + 8 SDGs + 4Rs + 4 green jobs (10 min)
- Solve 20 MCQs + write 5 x 2-mark answers timed (25 min)

Good luck! For the interactive web version with print button, open index.html in this repo or visit <https://umesh87389.github.io/techlearners/> after Pages is enabled.
